A vertical strip of a grid, likely a portion of a larger image. The central strip consists of a sequence of red and yellow squares arranged in a repeating pattern. The red squares are positioned at regular intervals, creating a rhythmic visual effect. The strip is bordered on both sides by a grey area with a fine dotted pattern.

A vertical strip of a repeating pattern of red and yellow squares on a gray background. The pattern consists of a central column of red squares, with yellow squares interspersed at regular intervals. The background is a light gray with a fine, dotted texture.

A vertical bar chart showing the distribution of 1000 data points across 10 categories. The categories are represented by different colors: red, orange, yellow, green, blue, purple, pink, brown, grey, and black. The red category is the most frequent, followed by orange and yellow. The other categories are less frequent and appear in smaller clusters.

[illegible]
