A vertical strip of a grid, likely a portion of a larger image. The central strip consists of a repeating pattern of red and yellow squares, with a few green squares interspersed. This central strip is flanked by grey dotted borders.

A vertical strip of a grid, likely a portion of a larger image. The strip is composed of a single column of cells. The cells are colored in a repeating pattern of red and yellow, with red cells appearing more frequently than yellow cells. The pattern is consistent throughout the strip.

A vertical bar chart showing the distribution of 1000 data points across 10 categories. The categories are represented by different colors: red, yellow, green, and orange. The red category is the most frequent, followed by yellow, green, and orange.
